EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 4-9, 11 and 16-18 have been cancelled by the examiner as being drawn to the non-elected method of invention II.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: regarding independent claims 1 and 13, the known prior art does not disclose or suggest the combination that would teach at least two apertures in the barrel of a rifle or machine gun, the at least two apertures being aligned with the angled shoulder of a live ammunition cartridge, the cartridge and the barrel being cooperatively associated so as to vent pressure created by firing the cartridge through the barrel apertures and thereby deprive the live ammunition of sufficient strength to propel the bullet down the barrel, thereby retaining the bullet in the barrel.

3. The declarations of the inventor, Robert Gee, filed on 11/12/2004 and 11/21/2005, have been fully considered by the examiner.

4. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 571-272-6872. The examiner can normally be reached on Monday - Wednesday and Friday, 8.30 - 5.30.
